

Bay & Bow Windows from Alside

Add a Beautiful New Dimension to Your Home

Every Alside Bay and Bow custom-made window makes a beautiful difference. These three-dimensional windows create dramatic new looks, adding style to the exterior of your home as they expand interior space, light, and view. Create instant charm with a cozy bay window reading nook or offer a graceful setting with an elegant bow window. Regardless of your choice, a new Alside Bay or Bow Window can make any room more interesting, more personal, and more livable.

Alside Bay and Bow Windows are exceptionally energy-efficient, helping to lower your heating and cooling costs, increase the comfort of your home and even improve its resale value. And like all Alside products, they are designed for a lifetime of performance and freedom from maintenance. Our Lifetime Limited Warranty is your assurance that we stand behind this promise.

Features and benefits:

- Extruded vinyl frame and sashes help to increase energy efficiency
- 1-1/4" furniture-grade, standard veneer in the construction of head, seatboard, and jambs
- 3" pre-insulated seatboard option helps increase comfort and energy savings
- Slimline reinforced mullion design provides superior strength and support for the selection components
- Adjustable turn-buckle cable hanging system is designed to eliminate possible sagging or bowing and the need for external braces
- Exterior decorative roof system available with an optional copper or painted aluminum roof clad kit
- Available in your choice of double-hung, casements or fixed-lite combinations

Ask Pro-Homes about the optional ClimaTech insulated glass packages available for optimal performance in your home's climate zone.
