

Superior Rigidity, Beautiful Ventilation

Alside

CHARTER OAK PREMIUM VINYL SOFFIT . . .

combines the beauty and performance of wood with the durability and easy-care convenience of vinyl. Plus, vented panels feature virtually invisible vents to allow essential airflow.

QUITE SIMPLY, IT'S ONE OF THE BEST SOFFITS YOU CAN BUY

The first step to a beautiful home comes long before a siding contractor pulls into your driveway. It starts with the product development teams and manufacturing specialists who select materials, refine designs and continuously improve production and quality control processes. All this with one goal in mind: unparalleled product quality . . . on the day of installation and for decades to come.

A MORE SUSTAINABLE CHOICE

The home that protects you can also help protect the environment. As a durable product with a long service life, vinyl soffit panels such as Alside's have been shown in a cradle-to-grave Life Cycle Assessment study commissioned by the Polymeric Exterior Products Association (formerly the Vinyl Siding Institute) to have a smaller environmental footprint relative to competing materials.* And because it never needs to be painted, vinyl soffit also helps prevent paint, stain and other maintenance-related products from being released to the environment.

QUALITY YOU CAN COUNT ON

Made to be the best. And made to last. That's what you can count on when you choose Charter Oak Premium Vinyl Soffit. You have the confidence that comes when working with a company recognized and respected for its manufacturing and quality control excellence. Plus you have the assurance that comes with Alside's lifetime limited warranty.**

So why choose a lesser soffit? Make your first choice the best choice . . . Charter Oak Premium Vinyl Soffit.

MADE WITH PREMIUM RAW MATERIALS

Developing a tough, durable and beautiful vinyl soffit such as Charter Oak requires the technical skills of chemical process engineers and the visual sensibilities of architects. That's because the premium vinyl used in Charter Oak is more than just a simple vinyl resin. It's a specially formulated compound, with each ingredient chosen to add specific benefits to the final product.

PureStrength vinyl resin gives Charter Oak its strength and weather resistance. It prevents moisture infiltration from rain and humidity, so panels won't rot, warp, shrink or swell. The result is low-cost, easy-care maintenance.

Ti-Shield titanium dioxide helps prevent ultraviolet degradation, so even hot summer sun won't damage Charter Oak's beautiful surface.

StayRight vinyl stabilizers also help prevent heat degradation, both during manufacturing and after installation.

TrueShield impact modifiers give Charter Oak exceptional impact resistance, helping to prevent denting and dinging from routine around-the-house activities.

DesignersChoice pigment concentrates are used to produce beautiful high-performance color for every Charter Oak panel. You'll never have to stain or paint again, because the color won't wash away.

Charter Oak. Technically, it's beautiful.

CHARTER OAK'S TRIBEAM[®] SYSTEM

Designed for Superior Performance

Charter Oak panels are so rigid that they can be used as vertical siding to create dramatic emphasis at entry ways, gable end walls and other accent areas.

INNOVATIVE TRIBEAM SYSTEM PROVIDES IMPRESSIVE PANEL RIGIDITY AND SUPERIOR WIND RESISTANCE

Charter Oak's lasting beauty isn't a result of just blending premium raw materials. Product engineers have created an exceptional design for Charter Oak that provides greater rigidity and resistance to high winds.

Charter Oak soffit is one of the most rigid soffit products on the market. Its superior rigidity is the result of Alside's innovative TriBeam system, which makes Charter Oak not only stiffer than competitive panels, but also lighter and easier to install.

NO SAGGING – TESTS PROVE IT

This advanced panel design allows Charter Oak soffit to easily span long runs without sagging. Plus, cupping is virtually eliminated. The result is an installation of exceptional beauty.

In independent tests, Charter Oak proved to be substantially more rigid than leading competitive soffit panels.

Extra-rigid Charter Oak stays flat, providing outstanding appearance and quality, year after year.

Ordinary soffit lacks stiffness, so it tends to cup when installed.

DID YOU KNOW for nearly two decades vinyl siding has been a leading choice for exterior cladding on new single-family homes. This broad appeal stems not only from its beauty, durability, and easy upkeep, but also from the fact that vinyl siding adds value to homes.

CHARTER OAK PREMIUM VINYL SOFFIT

Exceptional Quality, Durability and Style

PREMIUM APPEARANCE

The look of custom-milled soffit has gently rounded “board” edges and an elegant 3-1/3” exposure width. Its finely textured, low-gloss finish looks and feels like painted wood and has deep, realistic shadow lines. Plus for greater design flexibility, it’s available in a full selection of architectural colors.

SUPERIOR RIGIDITY

Featuring the superior rigidity of the TriBeam design, Charter Oak soffit panels are performance-engineered to stay flat and level like solid wood soffit. It’s beauty ordinary vinyl soffit can’t provide.

OUTSTANDING DEPENDABILITY

Wood soffit looks good, but it can warp and rot after exposure to dampness normally found at eaves and porch ceilings. Charter Oak soffit is made with weather-resistant vinyl, so rain and humidity don’t cause problems.

EASY-CARE CONVENIENCE

Dampness also produces a tough cleanup problem – mold and mildew stains. But with Charter Oak, simply wash panels occasionally with a garden hose to remove most airborne dust and dirt and restore the like-new beauty. No more sanding, staining or painting.

BEAUTIFUL VENTILATION

Aeration openings are hidden in the grooves of Charter Oak vented soffit panels. This means exceptional beauty . . . plus the continuous airflow needed to keep attics cool and dry.

Virtually invisible vent slots provide essential airflow without detracting from the beautiful appearance.

CHOOSING COLOR FOR YOUR HOME HAS NEVER BEEN EASIER

From Deep Espresso to Laguna Blue, the line-up of architectural colors doesn't shy away from bold and beautiful. Mix and match complementary shades for a look that is fresh and serene or combine more than one shade to bring richness and sophistication to your home.

STANDARD COLOR COLLECTION

ARCHITECTURAL COLOR COLLECTION†

DARKER COLORS STAY TRUE!

Our darker soffit colors are fortified with ChromaTrue® technology for superior color retention. This advanced copolymer compound provides long-term color stability and better performance on darker colors.

THE ART OF THE MIX

There's no need to settle for siding and trim that almost match. Alside's ColorConnect® Color Matching System offers smart solutions for every design approach. ColorConnect standards have been painstakingly applied to select Alside products to ensure you are making tasteful color choices with enduring aesthetic value and the custom look you desire.

Whether it's a rich color that draws your eye to an interesting architectural detail, or neutral hues applied to a historic home, the Alside ColorConnect Color Matching System helps you successfully match the color of your siding with other Alside exterior products and accessories.

The ALSIDE EXTERIOR DESIGN SYSTEM

Coordinated Easy-Care Products

EXTERIOR TRIM, ACCESSORIES AND ACCENTS

Rooflines, corners, windows and door frames – some elements deserve special treatment. Enhancing these areas can give your home a custom finished look while letting your individual style shine through. Our Trimworks® collection of decorative trim and accents, along with shakes, scallops and other ornamental panels, makes it easy to achieve a flawless finish. All options are fully color-coordinated with Charter Oak Premium Vinyl Soffit.

PEACE OF MIND

Charter Oak Premium Vinyl Soffit and Alside accessories are backed by lifetime limited warranties.** For complete warranty information, including limitations, please see a printed copy of the warranty.

HOME VISUALIZER

See the finished look before the work begins! Our Alside siding visualizer lets you create multiple exterior designs with just the click of a mouse. Simply select a house style – or submit a photo of your own home – and choose siding profiles, accents, soffit and trim, along with color options for doors, roofing, shutters and more. Visit www.alside.com/color-design to get started today.

Pertains to Charter Oak Vinyl Solid Soffit used as a vertical siding. Excludes the colors Musket Brown and Black. Consult the PEPA website at www.polymericexteriors.org for a current list of certified products.
